PROFESSIONAL SUMMARY

Customer-focused professional with experience across customer support, sales, team leadership and digital operations. Skilled in managing customer relationships, understanding needs, resolving enquiries, coordinating follow-ups and supporting customers through digital processes. Completed Customer Success and Technical Account Management (CSM/TAM) training, supported by practical case studies focused on onboarding, product adoption, customer health and retention. Brings a commercially minded approach, strong communication, adaptability and a commitment to helping customers achieve value.

CORE SKILLS

Customer Relationship Management • Customer Experience & Support • Customer Onboarding & Engagement • Customer Retention & Follow-up • Enquiry & Complaint Resolution • Sales Performance & Team Support • Digital Operations & Data Management • Customer Journey Mapping • Product Adoption & Customer Health • CRM & Ticketing Workflows • Stakeholder Communication • Problem-Solving & Escalation

PROFESSIONAL EXPERIENCE

Remote Sales Manager / Team Lead | *Betalife Prime Solutions* | *2024–Present*

- Manage customer relationships and support sales conversations, responding to approximately 100+ customer enquiries each month.
- Support a customer base of 500+ by understanding needs, providing relevant information and maintaining consistent follow-up.
- Contribute to sales performance, including achieving 70% of a sales target and exceeding a target by 80% during a separate strong performance period.
- Coordinate team activities and support the development of new team members by training interns.
- Use customer conversations and follow-up to support informed decisions and a positive customer experience.

Digital Operations Manager (NYSC Place of Primary Assignment) | *Numarapay* | *ICT Company* | *2025–2026*

- Managed routine digital operations for a school website and its associated parent and student portals.
- Entered and maintained student and parent information on the school website, ensuring records were accurately uploaded.
- Created and configured user access so parents and students could log in and access the website and their respective portals.
- Supported users through access-related processes and helped ensure that digital information was available to the intended users.

Customer Support | *Omile Ventures* | *2020–2022*

- Handled more than 50 customer interactions daily through calls and live chat, responding to enquiries and customer concerns.
- Maintained customer communication and supported customers with timely information and issue resolution.
- Successfully closed approximately 80% of open support tickets through follow-up and resolution.

CUSTOMER SUCCESS PROJECTS

Customer Journey Mapping — Sunrise Digital MFB | View case study

Mapped key stages of the digital banking customer journey and examined friction between verification and first deposit. Identified a 53% drop-off at this transition, with issues including lost verification sessions, unclear account-tier names and missing confirmations. Recommended resumable verification, clearer in-product communication and stronger customer support touchpoints.

Customer Adoption & Early-Warning Workflow — Okonkwo FinTech Solutions / BukkiBooks | View case study

Analysed a case in which a customer stopped using an important inventory feature after a staff change and training gap. Proposed a proactive workflow to monitor usage changes, flag accounts for investigation, prioritise human follow-up and measure adoption recovery. The case demonstrates how customer usage signals can guide intervention without treating low usage as automatic proof of churn risk.

Fintech Onboarding & Activation Analysis | View case study

Reviewed an onboarding funnel and identified gaps between customer registration, verification, first funding and ongoing activity. Developed recommendations to reduce onboarding friction through clearer guidance, save-and-resume options, proactive status updates and accessible human support. Proposed measurable improvement targets for funding conversion and 30-day activity.

TOOLS & PLATFORMS

HubSpot CRM, Freshdesk, Zendesk, Slack, Microsoft Teams, Google Chat, Google Workspace, Microsoft Office, OneDrive and Dropbox.
